Each of the clues below will reveal one letter toward your *Unlock It!* word.

CLUE

Starting at the beach and looking at the lake, take the paved path south past the boathouse. When a trail option is paved or unpaved, choose the one closest to the lake until you reach a picnic area with a bathroom building. What is this area of the park is called? Use the first letter of the second word.

CLUE

Keep going past the picnic area looking for a grass, dirt and gravel trail through an opening in the woods until you reach the main black top path again. Once there, take it in the direction that keeps the lake on your right. Cross a bridge and keep going until you reach a large shed on your left side. What on the roof shows that the building is not brand new anymore? Use the last letter of that word.

CLUE

Retrace your steps, this time staying on the blacktop trail until you cross a road; when the trail comes to a T, go right and watch for a feature of this park guaranteed to take your breath away when you climb it. Do so while counting the exact number of risers to the top. Have each member of your group count separately to make sure you get an exact count. Subtract 112 from your total. What letter is that number in the alphabet? It reveals one of your letters.

BONUS: This is the first letter of your keyword.

CLUE

Take the gravel trail on a downward slope looking for a large (very large!) solid geological formation. Sit or stand high on it and use the first letter of this word.
