Everything You Need for Summer

YMCA Camp Widjiwagan

Camp provides campers the opportunity to gain confidence as they build lifelong outdoor skills. This important information will ensure your child is ready for their session at camp.

CAMPDOC COMING SOON!

Your one stop shop for uploading additional forms and health history information!

New for 2021! We are excited to be partnering with **CampDoc**, the leading electronic health record system for camps, to better serve our camper families this summer and beyond. The CampDoc site is secure, encrypted and password-protected to ensure the privacy of your camper's health information. Please stay tuned for an email early May with information on how to login to review and update your health-related information, as well as upload camp forms.

In the meantime, we encourage you to download our [Physical Exam Form](#) and schedule an appointment with your physician. We require an

updated physical exam dated within 12 months of the beginning of your camper's session.

COVID-19 RELATED UPDATES

We are implementing strategies to prevent the introduction and spread of Covid 19 cases at Widji this summer. As a result, we will be asking you to prepare for your session in specific ways. Make sure that you are monitoring the [Summer 2021 Wilderness Camp COVID 19 Adaptations](#) page for up-to-date information about the impact of Covid 19 on our programming as well as:

- Pre-arrival guidelines
- Guidance for campers traveling to camp by plane
- What to expect at camp related to masking, distancing and sanitization
- Information on screening, testing and positive cases

POSITIVE COVID 19 CASES

We expect that the availability of vaccines combined with our Covid 19 mitigation measures will reduce the probability of a camper or staff member testing positive for COVID-19 at Widji. **Parents and Guardians should be aware that if a camper tests positive for COVID-19, we will be required to remove that camper from the field along with, potentially, their trail group.**

We will be asking a family member to assume care of an evacuated camper as soon as possible after they receive notification that their camper is leaving the field. We will convey specific timelines based on trip locations.

Families will be responsible for their evacuated camper's travel home from their trip destination. We will work with families to orchestrate this transition as smoothly and quickly as possible.

ROLL UP YOUR SLEEVES MINNESOTA

The 'Roll Up Your Sleeves, MN' vaccine outreach campaign is focusing on Minnesotans aged 16 and 17. This means that between April 27 and May 1, 16 and 17 year olds, and their parents, will be prioritized for vaccines at [Minnesota's Mall of America Community Vaccination site](#). We encourage all eligible campers to get the Covid-19 vaccine.

ADDITIONAL INFORMATION

Reviewing the "[Parents and Guardians](#)" section of our webpage as well as our [Summer Information Guide](#) will answer many of your more general questions about camp related to schedule, packing, communication, food and more. Widji also offers detailed [Canoeing](#), [Backpacking](#) and [Pathfinder](#) specific gear lists.
